Call your Eploy Account Manager
for a custom quotation for higher
volumes of video interviews

Recorded interviews will be stored within your Eploy System for a maximum of six months. Prices are per completed application form that contains at least one video or audio question. For example, a vacancy that has video questions within the application form, that receives 30 completed candidate applications would use 30 credits, irrespective of the number of video questions contained within the form. Prices shown excluding VAT.
